Adjuvant/Additive 3		0.00	

## Comments/Descriptions

### Brief Description of Incident circumstances

#### Notes

Half of two separate pivots was sprayed on June 28th, 2017 with 3 oz Laudis, 6 oz dicamba, 7 oz atrazine, 24 oz glyphosate, ½% MSO, and 3.6 gallons Nitrogen per acre. The grower then had to move the two center pivots so he could spray the other two halves of the pivots. He sprayed the second two halves on June 29th, 2017. A bad storm came through the night of June 29th causing the bad green snap in the two halves sprayed the day before on June 28th where the chemical had been in the plants for 24+ hours. The two halves sprayed the same day as the wind event had little to no green snap.

These two pivots previously had 2.5 qts of Acuron plus 24 oz glyphosate applied early post on the corn in early June. The Acuron did not work well so the Laudis treatment was a clean-up treatment.

#### Probable Causes

TANKMIX PARTNER EXCESSIVE WIND

## EPA Reporting Questions and Answers

1. Does the report allege phytotoxicity to non-target plants(runoff, carryover)? *	N
1a. If yes, what was affected(runoff,carryover,treated plants)?	
1b. If yes, were the non-target plants present at the site and time of the applications?	N
1c. If yes, was there an explicit label warning regarding phytotoxicity to the non-target plants?	N
2. Does the report allege drift? *	N

2a. If yes, was the alleged drift consistent with anticipated drift?	N
2b. If yes, acres affected by the drift?	0.00
2c. If yes, what was affected?	
2d. If yes, distance of affected area from treated area?	0.00
2e. If yes, what plant species was affected?	
3. Does the Report allege phytotoxicity in the treated crop? *	N
3a. If yes, was the alleged phytotoxicity in the treated crop?	N
3b. If yes, and the alleged phytotoxicity was non-lethal, was there an explicit label warning?	N
4. Does the report allege a toxic effect to pests non-specified on the label?	N
5. Does the report allege or involve a secondary pest infestation?	N
6. Exposed to Concentrate?	N
7. Were tissue samples analyzed?	N

EPA Registration # (Product 4)

UNKNOWN

A.I.(s)

GLYPHOSATE

Product 4 Name

GLYPHOSATE (NON-SPECIFIC)

Exposed to Concentrate prior to dilution?

NO

Formulation

UNKNOWN
